

1Q 2025

Investment Objective

The primary objective is to provide maximum total return, consistent with the preservation of capital, prudent investment management, the maintenance of liquidity and interest rate risk.

Investment Strategy

VBT Liquidity Fund is composed of two funds:

-BBH Short Duration Fund: primarily used as a liquid reserve, seeks to provide investors with maximum total return, with a focus on capital preservation.

-Structured Fixed Income Strategy: delivers secondary liquidity needs, generating above-market performance for investors seeking the attractive risk/return characteristics of the structured securities market. It invests in asset-backed securities, commercial mortgage-backed securities, agency mortgage-backed securities, secured corporate debt, and select collateralized loan obligations.

This combination will provide a greater chance of obtaining higher yields while maintaining its current interest rate risk.

Risk notice: Venecredit Liquidity Fund Units are not deposits nor obligations of VBT Bank & Trust, Ltd. or any of its affiliated or related companies, and they are not guaranteed by any of them. Depending on the investment policy of the fund, investments may also be made in securities that are subject to strong price fluctuations. In addition, the performance of the fund depends on price changes and securities markets, making it impossible to guarantee that the investment policy targets are achieved. Likewise, it cannot be guaranteed that the unit-holder regains the value of his/her original investment if units are redeemed. For further information, request and read the Offering Circular of the mutual fund before doing any investments. As a matter of principle, earlier performances do not constitute a reliable indicator for future performance.
